USB Table Light
INSTRUCTION MANUAL

Safety Warnings

- This product is only suitable for connection to a 240V~50Hz supply in accordance with current IEE Wiring Regulations. It is for indoor use only, and not suitable for a bathroom location.
- If the Class II, double insulated symbol ⧈ is on the lamp, it does not require an Earth, and Live or Neutral **must not** be connected to Earth. If there is no such symbol, then the lamp must be Earthed.
- The lamp must be protected by a 3 amp fuse in the mains plug. Do not plug into the mains until your lamp is fully assembled.
- Under no circumstances must this table lamp be covered with any material as this could pose a safety hazard. It must be used on a stable, flat surface.
- Never fit bulbs of a higher wattage than those specified on the label, as these may cause overheating and damage the fitting.
- If the mains cable becomes damaged it must only be replaced by a technically competent, qualified person.
- Allow 10 minutes to cool before replacing, adjusting or cleaning. Clean with a dry cloth only. Do not use liquid or abrasive cleaners on this product.
- If you are in any doubt about your competence please consult a qualified electrician.
- If any modification is made it will invalidate the warranty and may render the product unsafe.

Assembly/ User Instructions

Before you start

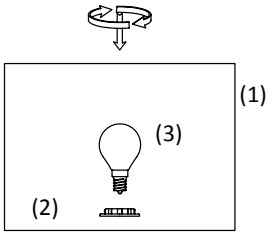
Please read these instructions carefully before fitting and retain for reference. Check the packaging and make sure that you have all the required parts. Follow each assembly step in order to prevent incorrect assembly. Ensure that the product is fully assembled as illustrated before use.

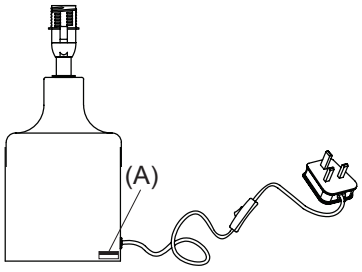
Please note: While the general steps to assemble your lamp will be the same, your individual product may vary from the diagram.

These assembly diagrams are intended as a guide – if in doubt consult a qualified electrician.

1. Carefully unpack your lamp, and place on a stable, flat surface.
2. Secure the shade (may not be supplied) (1) with the shade ring (2), and affix any additional beaded drops.
3. Install the bulb (3). Do not install a bulb with a greater wattage or different shape than specified on the label.
4. Plug in, and operate the switch to turn on.
5. If the lamp has a movable head or arm, ensure one hand is used to steady the lamp base while adjusting.

If your lamp will not illuminate, please check the bulb, the 3 amp fuse in the plug and ultimately check the relevant fuse in your fuse box. If unsuccessful please consult your retailer.





USB charging information

This product includes a USB-A port at the back of the base (A) with an output of 2100mA. It can be used to charge a variety of mobile devices via a suitable USB cable.

It may take a few minutes to start charging if your device is completely discharged, this is entirely normal. Your device may display a notification to confirm when charging has begun.

The charging time can vary depending on your device's current charge level, capacity, age and temperature in the surrounding environment.

Charging can cause devices to warm up; this is common and your device will gradually return to its normal operating temperature once disconnected.

To use this item in Europe, the 3 pin adaptor can be removed by loosening the central screw and removing the adaptor to reveal the 2 pin Europe plug.
